

LIne provides language services for clients in the private and public sector. LIne is run by Burkhard Schlösser, with twelve years' experience as a translator and language consultant. We specialise in translation from English and Swedish into German. We can translate your legal and financial texts, technical manuals, company presentations, websites and brochures, as well as general texts and a variety of other materials.

Burkhard Schlösser is a member of the Swedish Association of Professional Translators, SFÖ.

We also provide editing and proofreading in German, Swedish-German interpreting, and consultancy services.

Furthermore LIne provides training in German and intercultural communication. We have a wealth of experience of teaching at university level and for companies in house. Teaching in German can be provided in the form of private lessons or in groups.

In a business context, knowing a language isn't always enough. You have to get to grips with a foreign culture as well as a foreign language. A course in intercultural communication will help you and your staff understand how the other half thinks. We provide relevant, useful information about what you need to bear in mind in your business dealings with Germany. Why not contact us to discuss your needs, no strings attached!
